

ROBOTICS & ROVERS

Robot personalities

Names for machines that deserve a little personality.

WHAT YOUR HISTORY POINTS TO

Robotics, rovers, and servos
Raspberry Pi and embedded computing
Electronics and hardware tinkering
C++ / Python / web development
AI, vision, and image classification
Recycling and sorting automation
Custom watches and wearables

Hackathons and practical side projects
Servers, memory, and homelabs
Networking and remote computer control
Local AI hardware and image generation
Gaming tools and overlays
Bots and community software
Calculus, MATLAB, and technical learning

Plus: playful naming. Math may be coursework; the list is an inference.
